

HERO FLOORING

Accessories Transitions Price List

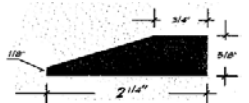

All accessories are inventoried for 5/8" or 3/4" flooring profiles

OVERLAP REDUCER

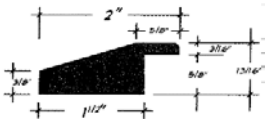

An overlap reducer installs 1/2" over the top of the installed hardwood thickness. It is used to reduce down to within 1/8" of the sub-straight where the flooring is installed.

FLUSH REDUCER

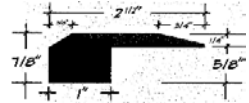

A flush reducer installs at the same height as the installed floor. It is used to reduce down to within 1/8" of the sub-straight where the flooring is installed. A straight cut is necessary for a proper fit.

CARPET REDUCER

An overlap carpet reducer installs 1/2" over the top of the installed hardwood thickness. It is used to reduce down to 3/8" to meet with carpeting, providing a carpet tuck finish.

THRESHOLD/END CAP

A threshold installs 1-1/2" over the top of the installed hardwood thickness. It is used to transition to tile, carpet or other surfaces.

T-MOLDING

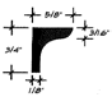

T-molding installs over the top of the installed hardwood and any joining material of the same thickness. It can be used with both 3/4" or 5/8" thickness flooring but not simultaneously.

SHOE MOLDING

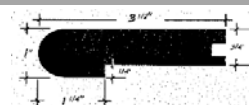

Shoe molding installs at the base of cabinetry, existing base board or exterior doorway thresholds to cover the expansion gap of the flooring installation.

SPRUNG COVE

Sprung cove is designed to trim the underside overhang of a stair tread or nosing detail.

NOSING 3-1/2"

Nosing at 3-1/2" is a standard nosing used to transition stepdown from room to room or at the top of a stair case or landing.

NOSING 5-1/2"

Nosing at 5-1/2" is a wide nosing used for open stairwells, sills, stepdown transitions or to upgrade the overall appearance of any installation.
